**NOTE: Labor and material costs for installation of special circuits is extra*

*Electrician ……$20.00 per person per hour*
*Houseman……$10.00 per person per hour*
*Please specify day, date, and time with number of housemen needed.*

Prices of special services and materials not listed will be given upon receipt of written information. All electrical prices include 5% tax. Per day usage price based on show days only.

On any single or three phase 208 volt circuits, specify whether a neutral is needed. Also, specify type plus NEMA NUMBER or whether a direct hook-up is needed. If a plug-in type is needed and you are not sure of the type of female receptacle, bring a female receptacle with your equipment.

The following current is available: 120 volts single and 208 volts, three phase, all 60 cycle A.C. All equipment must be properly tagged and wired with complete information as to type of current, voltage, amperage, phase, horse power, etc. Overloading and over-current are your responsibility.

Usage price for single phase outlets include your pro-rated share of the cost of special switchboards, temporary lines, and power lines to your booth, as well as removal after the show and current consumption.
